July 17, 2023

Dear Rice Industry:

As the Director of the Rice Experiment Station, I am pleased to notify you that the annual California Rice Field Day will be held Wednesday, August 30, 2023, at the Rice Experiment Station. We appreciate the excellent financial support of the annual Rice Field Day by you and/or your company in the past and we want to give you an opportunity to support the Field Day again this year.

Rice pest management and breeding research will be discussed on field tours of research areas this year. We are giving cooperators in disease, insect, and weed control research an opportunity to financially support the field tours by making a grant to the Rice Experiment Station. A grant of \$300.00 to \$500.00 is suggested. However, we will appreciate a grant of any amount acceptable to you. Please make your check payable to Rice Experiment Station and mail to P.O. Box 306, Biggs, California, 95917-0306, if you decide to financially support the Field Day. Your donation will be used to help cover the cost of the buses to transport people to research areas and the luncheon. We usually have 400 to 600 people attend the Rice Field Day. A grant by Albaugh will be acknowledged in the Rice Field Day Program Bulletin. Your support is an essential part of a successful Rice Field Day.

Please let us know as soon as possible and no later than July 28, 2023 if you plan to support the Rice Field Day. This will permit us to acknowledge Albaugh in the Field Day Program. We will be updating the Rice Field Program on our website at www.crrf.org. We hope you and your colleagues can join us August 30. Thank you in advance for your assistance and support.

Sincerely yours,

Dustin Harrell
Director
